

OUR SUSTAINABILITY POLICY

At Vista we operate with Integrity, Innovation and Agility. We work as a team to do things right, the first time and every time. We develop our business in a sustainable way to create value in the present while building a future for generations to come.

We commit to the following mandates:

1. Lead an inclusive, safe and healthy work environment for our employees, contractors and suppliers through the deployment of transparent, fair and equitable practices that respect diversity and enhance talent;
2. Promote the socio-economic development of the communities through training and strengthening their capacities, executing social projects through strategic alliances with public and private organizations;
3. Rationalize the use of natural resources, protecting the environment: the soil, water sources and the biodiversity of species that inhabit our assets;
4. Incorporate new methodologies and technologies that allow us to reduce greenhouse gas emissions produced from our operations;
5. Streamline our energy consumption and accelerate the energy transition incorporating the use of energy from renewable sources;
6. Motivate our employees to internalize sustainability as an essential pillar in our business model, ensuring its application in our Company and throughout our Value Chain in accordance with the Sustainable Development Goals (SDGs) of the United Nations Global Compact.

The commitment and participation of every employee in Vista is the key for the successful implementation of this strategy.
