INVESTOR PRESENTATION

FEBRUARY 2025

H

About projections and forward-looking statements

Additional information about Vista Energy, S.A.B. de C.V., a sociedad anónima bursátil de capital variable organized under the laws of Mexico (the "Company" or "Vista") can be found in the "Investors" section on the website at www.vistaenergy.com.

This presentation does not constitute an offer to sell or a solicitation of an offer to buy any securities of the Company, in any jurisdiction. Securities may not be offered or sold in the United States or Mexico absent registration with the U.S. Securities Exchange Commission ("SEC"), the Mexican National Securities Registry held by the Mexican National Banking and Securities Commission ("CNBV") or an exemption from such registrations, as applicable.

This presentation does not contain all of the Company's financial information. As a result, investors should read this presentation in conjunction with the Company's consolidated financial statements and other financial information available on the Company's website. Some of the amounts contained herein are unaudited.

Rounding of amounts and percentages: Certain amounts and percentages included herein have been rounded for ease of presentation. Percentage figures included in this presentation have not in all cases been calculated on the basis of such rounded figures, but on the basis of such amounts prior to rounding. For this reason, certain percentage amounts in this presentation may vary from those obtained by performing the same calculations using the figures in the financial statements. In addition, certain other amounts that appear in this presentation may not sum due to rounding.

This presentation contains certain metrics that do not have standardized meanings or standard methods of calculation and therefore such measures may not be comparable to similar measures used by other companies. Such metrics have been included herein to provide readers with additional measures to evaluate the Company's performance; however, such measures are not reliable indicators of future performance of the Company and future results may not be comparable to the past performance.

No reliance should be placed for any purpose whatsoever on the information contained in this document or on its completeness. Certain information contained in this presentation has been obtained from public sources, which may not have been independently verified or audited. No representation or warranty, express or implied, is given or will be given by or on behalf of the Company, or any of its affiliates (within the meaning of Rule 405 under the U.S. Securities Act of 1933, as amended, "Affiliates"), members, directors, officers, employees or any other person (the "Related Parties") as to the accuracy, completeness or fairness of the information or opinions contained in this presentation or any other material discussed verbally, and any reliance placed on them will be at your sole risk. Any opinions presented herein are based on general information or any other material discussed verbally, and any reliance placed on them will be accuracy to change without notice. In addition, no responsibility, obligation or indirect or indirect, in contract, tort or otherwise) is or will be accepted by the Company or any of its Related Parties in relation to such information or otherwise.

This presentation also includes certain non-IFRS (International Financial Reporting Standards) financial measures which have not been subject to a financial audit for any period; they should not be considered in isolation or as a substitute for other financial metrics that have been disclosed in accordance with IFRS. The information and opinions contained in this presentation are provided as of the date of this presentation and are subject to verification, completion and change without notice. For a reconciliation of Adjusted EBITDA for the fiscal year ended December 31, 2018, and December 31, 2019, to the closest IFRS measure, please see our Form 20-F filed with the SEC on April 28, 2021. For a reconciliation of Adjusted EBITDA for the fiscal year ended December 31, 2023, to the closest IFRS measure, please see our Form 20-F filed with the SEC on April 28, 2021. For a reconciliation of Adjusted EBITDA for the fiscal year ended December 31, 2023, to the closest IFRS measure, please see our Form 20-F filed with the SEC on April 24, 2023. For a reconciliation of Adjusted EBITDA for the fiscal year ended December 31, 2023, to the closest IFRS measure, please see our Form 20-F filed with the SEC on April 24, 2023. For a reconciliation of Adjusted EBITDA for the fiscal year ended December 31, 2023, to the closest IFRS measure, please see our Form 20-F filed with the SEC on April 24, 2023. For a reconciliation of forward-looking non-IFRS financial measures contained in this presentation without unreasonable effort, given that we are unable to estimate the amounts of certain components of the IFRS measure financial results, net) and our deferred income tax (which affects the IFRS measure income tax expense). Due to the nature of certain reconciling items, it is not possible to predict with any reliability what future outcomes may be with regard to the expense or income that may ultimately be recognized in the years ended December 31, 2024 and 2025.

This presentation includes "forward-looking statements" concerning the future. Words such as "proposes," "aims," "aspires," "thinks," "forecasts," "expects," "anticipates," "intends," "should," "seeks," estimates," and "future" or similar expressions are included with the intention of identifying statements about the future. For the avoidance of doubt, any projection, guidance or similar estimation about future results, performance or achievements is a forward-looking statement. Although the assumptions and estimates on which forward-looking statements are based on assumptions that are inherently subject to significant uncertainties and contingencies, many of which are beyond our control.

There will be differences between actual and projected results, and actual results may be materially greater or lower than those contained in the projections. Projections related to production results as well as cost estimations – including any anticipated performance and guidance of Vista included in this presentation – are based on information as of the date of this presentation and reflect numerous assumptions, including assumptions with respect to type curves for new well designs and certain frac spacing expectations, all of which are difficult to predict and many of which are beyond our control and remain subject to several risks and uncertainties. The inclusion of the projected financial information in this document should not be regarded as an indication that we or our management considered or consider the projections to be a reliable prediction of future events. As such, no representation can be made as to the attainability of projections, guidances or other estimations of future results, performance or achievements. We have not warranted the accuracy, reliability, appropriateness or completeness of the projections to anyone. Neither our management nor any of our representatives has made or makes any representation to any person regarding our future performance compared to the information contained in the projections, and none of them intends to or undertakes any obligation to update or otherwise revise the projections to reflect circumstances existing after the date when made or to reflect the occurrence of future events in the event that any or all of the assumptions underlying the projections are shown to be in error. We may or may not refer back to these projections in our future periodic reports filed or furnished under the Securities Exchange Act of 1934 or otherwise. These expectations and projections are subject to significant known and unknown risks and uncertainties, which may cause our actual results, performance or achievements, or industry results, to be materially different from any expected or projected results, performance or achievements expressed or implied by such forward-looking statements. Many important factors could cause our actual results, performance or achievements to differ materially from those expressed or implied in our forward-looking statements, including, among other things: uncertainties relating to our ability to become net zero in 2026; future government concessions and exploration permits; adverse outcomes in litigation that may arise in the future; general political, economic, social, demographic and business conditions in Argentina, Mexico and in other countries in which we operate; the impact of political developments and uncertainties relating to political and economic conditions in Argentina, including the policies of the government in Argentina: significant economic or political developments in Mexico and the United States: uncertainties regarding the new administration that took office in Mexico in October 2024: changes in laws, rules, regulations and their interpretation and enforcement applicable to the Argentine and Mexican energy sectors and throughout Latin America, including changes to the regulatory environment in which we operate and changes to programs established to promote investments in the energy industry; any unexpected increases in financing costs or an inability to obtain financing and/or additional capital pursuant to attractive terms; any changes in the capital markets in general that may affect the policies or attitude in Argentina and/or Mexico and/or Argentine and Mexican companies with respect to financings extended to or investments made in Argentina and Mexico or Argentine and Mexica companies: fines or other penalties and claims by the authorities and/or customers: any future restrictions on the ability to exchange Mexican or Argentine Pesos into foreign currencies or to transfer funds abroad: the revocation or amendment of our respective concession agreements by the granting authority; our ability to implement our capital expenditures plans or business strategy, including our ability to obtain financing when necessary and on reasonable terms; government intervention, including measures that result in changes to the Argentine and Mexican labor markets exchange markets or tax systems; continued and/or higher rates of inflation and fluctuations in exchange rates, including the devaluation of the Mexican Peso or Argentine Peso; any force maieure events, or fluctuations or reductions in the value of Argentine public debt; changes to the demand for energy; the effects of a pandemic or epidemic and any subsequent mandatory regulatory restrictions or containment measures; environmental, health and safety regulations and industry standards that are becoming more stringent; energy markets, including the timing and extent of changes and volatility in commodity prices, and the impact of any protracted or material reduction in oil prices from historical averages; our relationship with our employees and our ability to retain key members of our senior management and key technical employees; the ability of our directors and officers to identify an adequate number of potential acquisition opportunities; our expectations with respect to the performance of our recently acquired businesses; our expectations for future production, costs and crude oil prices used in our projections; uncertainties inherent in making estimates of our oil and gas reserves, including recently discovered oil and gas reserves; increased market competition in the energy sectors in Argentina and Mexico; potential changes in regulation and free trade agreements as a result of U.S., Mexican or other Latin American political conditions; environmental regulations and internal policies to achieve global climate targets; the ongoing conflict involving Russia and Ukraine; and more recently, the Israel-Hamas conflict. Further information concerning risks and uncertainties associated with these forward-looking statements and Vista's business can be found in Vista's public disclosures filed on EDGAR (www.sec.gov) or at the web page of the Mexican Stock Exchange (www.bmv.com.mx).

Forward-looking statements speak only as of the date on which they were made, and we undertake no obligation to release publicly any updates or revisions to any forward-looking statements contained herein because of new information, future events or other factors. In light of these limitations, undue reliance should not be placed on forward-looking statements contained in this presentation. You should not take any statement regarding past trends or activities as a representation that such trends or activities will continue in the future. Accordingly, you should not put undue reliance on these statements. This presentation is not intended to constitute and should not be construed as investment advice.

Other Information

Vista routinely publishes important information for investors in the "Investor Relations support" section on its website, www.vistaenergy.com. From time to time, Vista may use its website as a channel for distributing material information. Accordingly, investors should monitor Vista's Investor Relations website, in addition to following Vista's press releases, SEC filings, public conference calls and webcasts.

DEEP, READY-TO-DRILL, SHORT-CYCLE WELL INVENTORY

- Up to 1,150 locations under development in Vaca Muerta, including 149 wells already drilled
- Productivity of shale oil wells among best-in-basin
- 375.2 MMboe of proved reserves (86% oil) at YE 2024
- Crude oil treatment capacity of 90 Mbbl/d in our development hub plant

PEER-LEADING OPERATING PERFORMANCE

- Q4-24 total production was 85.3 Mboe/d
- Exported 56% of oil sales volumes during Q4-24, with 73% of total volumes sold at export parity
- 4.6 \$/boe lifting cost in 2024, down 67% since 2018 ⁽¹⁾
- Flat and agile organization, led by an experienced oil & gas management team

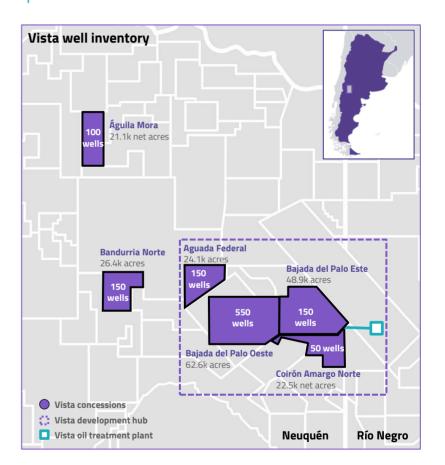

ROBUST BALANCE SHEET & FINANCIAL PERFORMANCE

- Sound balance sheet with 764 \$MM in cash, and a net leverage ratio of 0.63x, as of YE-24
- Adj. EBITDA was 1,092 \$MM in 2024, resulting in an Adj. EBITDA margin of 65% at 69.2\$/bbl realized oil price ⁽²⁾

SUSTAINABILITY FOCUSED CULTURE

 Aspiring to become net zero in 2026 ⁽³⁾, by combining strong reduction of operational carbon footprint with own portfolio of Nature Based Solutions to remove remaining emissions

FULLY FOCUSED SHALE OIL COMPANY, WITH +200K ACRES IN THE CORE OF VACA MUERTA

⁽²⁾ Adj. EBITDA = Profit for the year, net + Income tax (expense) / benefit + Financial income (expense), net + Depreciation, depletion and amortization + Transaction costs related to business combinations + Restructuring and reorganization expenses + Gain related to the transfer of conventional assets + Other non-cash costs related to the transfer of conventional assets + Impairment (reversal) of long-lived assets. Adj. EBITDA Margin = Adj. EBITDA / (Total Revenues + Gain from Export Increase Program)

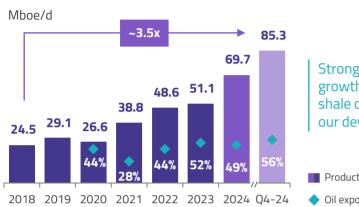

(3) Scope 1 & 2 GHG emissions

⁽¹⁾ Lifting cost includes production, transportation, treatment and field support services; excludes crude oil stock fluctuations, depreciation, depletion and amortization, royalties and others, selling expenses, exploration expenses, general and administrative expenses, other operating income, other operating expense and other non-cash costs related to the transfer of conventional assets

Vista highlights

PRODUCTION

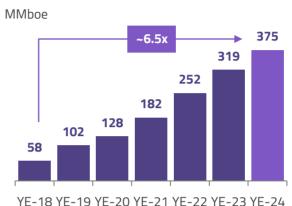

Strong production growth driven by shale oil projects in our development hub

Production

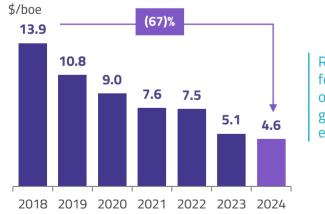

Oil export volumes (%)

PROVED RESERVES

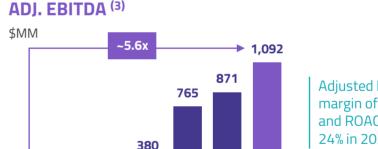

Reserves replacement ratio of 323% in 2024, with a total of 400 booked locations at YE-24⁽¹⁾

LIFTING COST⁽²⁾

Reduction driven by focus on shale operations, production growth and additional efficiencies

72.3

2022

66.7

2023 2024

69.2

54.9

2019 2020 2021

Adjusted EBITDA margin of 65% and ROACE of 24% in 2024 ⁽⁴⁾

Adj. EBITDA Realized crude oil price (\$/bbl)

Note: Q1 2018 actual production, lifting cost and Adj. EBITDA include pro forma results aggregating production and costs from assets acquired on April 4, 2018

- 156 locations booked as Proved developed and 244 locations booked as Proved undeveloped (1)
- (2) Lifting cost includes production, transportation, treatment and field support services; excludes crude oil stock fluctuations, depreciation, depletion and amortization, royalties and others, selling expenses, exploration expenses, general and administrative expenses, other operating income, other operating expense and other non-cash costs related to the transfer of conventional assets
- (3) Adj. EBITDA = Profit for the year, net + Income tax (expense) / benefit + Financial income (expense), net + Depreciation, depletion and amortization + Transaction costs related to business combinations + Restructuring and reorganization expenses + Gain related to the transfer of conventional assets + Other non-cash costs related to the transfer of conventional assets + Impairment (reversal) of long-lived assets. Adj. EBITDA Margin = Adj. EBITDA / (Total Revenues + Gain from Energy Dollar net of related costs)

195

67.0

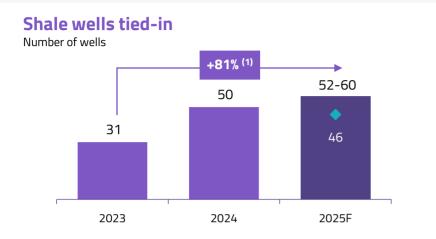

2018

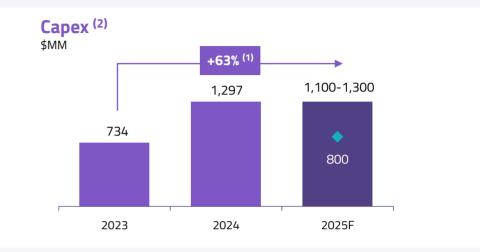

172

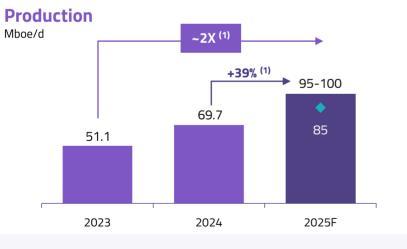

53.0

ROACE = (Adj. EBITDA + Depreciation, depletion and amortization + Gain related to the transfer of conventional assets + Other non-cash costs related to the transfer of conventional assets) / (Average total debt (4) + Average total shareholders' equity). Total Debt = Current Borrowings + Non-current Borrowings + Current Lease liabilities + Non-current Lease liabilities

Accelerating our highly profitable growth plan

Actuals / Updated guidance

(1) Percentage increase calculated with the midpoint of the guidance range

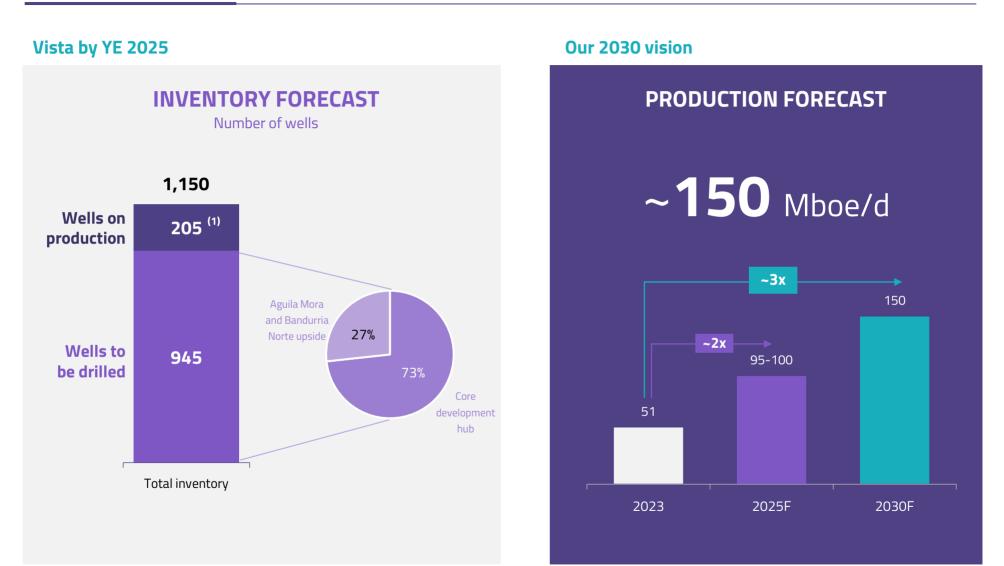

(2) Investments in oil midstream projects such as Oldelval, OTE and Vaca Muerta Sur are not allocated to Capex

(3) Assumes a realized oil price of 67-72 \$/bbl, with an implied Brent price of 75-80 \$/bbl. Adj. EBITDA = Profit for the year, net + Income tax (expense) / benefit + Financial income (expense), net + Depreciation, depletion and amortization + Transaction costs related to business combinations + Restructuring and reorganization expenses + Gain related to the transfer of conventional assets + Other non-cash costs related to the transfer of conventional assets + Impairment (reversal) of long-lived assets

- (4) Based on a total production scenario of 95 Mboe/d
- (5) On September 26, 2023, the Company furnished its Investor Day Presentation to the SEC, which included certain projections for the years 2025 and 2026 (the "2025 Guidance" and the "2026 Guidance," respectively). The Company has revised its 2025 Guidance in this presentation. The Company continues to assess the impact that the revisions to the 2025 Guidance may have on the 2026 Guidance. As a result, the Company is withdrawing its 2026 Guidance, with the exception that the Company maintains its ambition to become net zero in scope 1 and 2 GHG emissions by 2026

Long term vision fully supported by organic growth

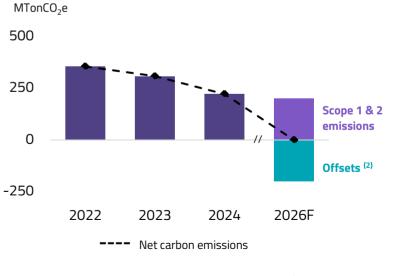

Near-term roadmap to our net zero ambition

We aspire to become net zero in 2026⁽¹⁾

- Our priority is to continue reducing our operational carbon footprint by implementing technologies currently available to us
- We have reduced scope 1 and 2 emissions intensity from 39.4 kgCO2e/boe in 2020 to 8.8 kgCO2e/boe in 2024
- Set up Aike, our Nature Based Solutions (NBS) venture, which designs, manages and executes carbon capture projects, staffed with leading local experts, to offset our remaining carbon emissions
- Aike is currently executing 13 NBS projects for Vista in Argentina, spanning over +43,000 ha, across 7 provinces

PATH TO NET ZERO AMBITION

(2) Transferred Conventional Assets operated by Aconcagua as of March 1, 2023. Under the agreement, Vista is entitled to 40% of crude oil production and reserves and 100% of natural gas and LPG and condensates production and reserves of the Transferred Conventional Assets

(3) Includes Entre Lomas Neuquén and Entre Lomas Río Negro

(4) Includes Jarilla Quemada and Charco del Palenque

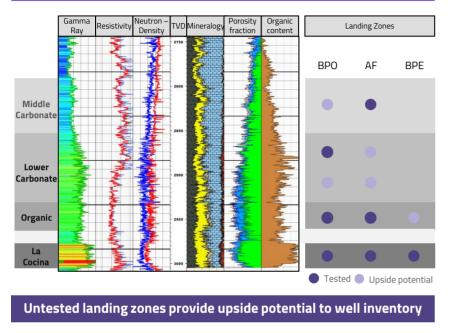

VISTA BLOCKS IN VACA MUERTA

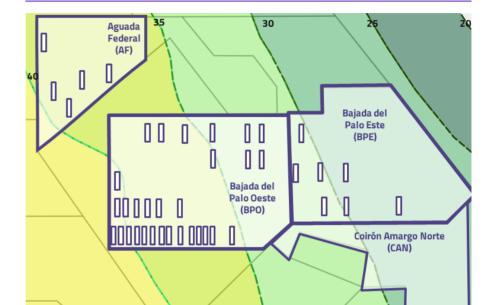

149 wells tied-in in Vaca Muerta, with significant growth upside underpinned by our 1,150 well inventory

STACKED PAY POTENTIAL ACROSS MULTIPLE ZONES

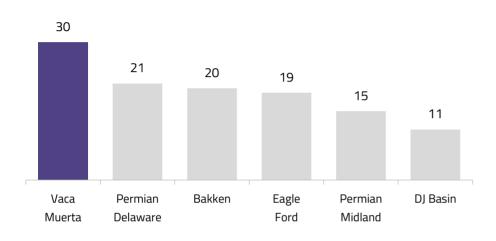

Note: pad locations for illustrative purposes. Pad sizes not to scale

DEVELOPMENT HUB PROGRESS

- Solid performance to date in Bajada del Palo Oeste, with 117 wells tied-in and producing on average 8% above BPO type curve ^{(1) (2)}
- De-risked Bajada del Palo Este by drilling and completing 17 wells in 7 pads BPE-1 to BPE-7
- Completed and tied-in 13 wells in Aguada Federal. Completed the construction of pipeline connecting to BPO
- Facilities in place with capacity to process up to ~90 Mbbl/d of crude oil
- Contracted a third high-spec drilling rig and secured a second frac set, adding flexibility to accelerate plan in 2025+

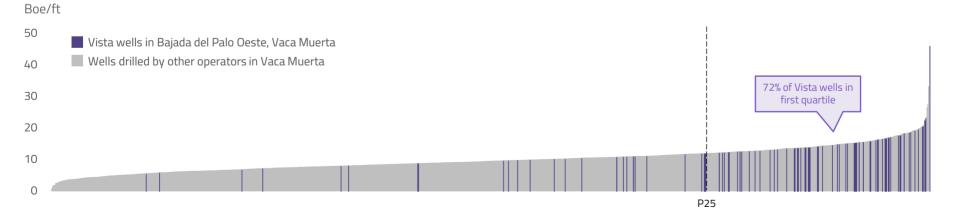

Average well productivity: Vaca Muerta vis-à-vis US shales ⁽¹⁾ First 365 days cumulative production, Mbbl per 1,000 feet of lateral

Vaca Muerta wells - cumulative 90-day oil & gas production ⁽³⁾

Rock Properties: Vaca Muerta vis-à-vis US shales ⁽²⁾

PLAY	TOTAL ORGANIC CONTENT (%)	THICKNESS (M)	RESERVOIR PRESSURE (PSI)
Desired values	>2	>30	Higher
Vaca Muerta	3-10	30-450	4,500-9,500
Eagle Ford	3-5	30-100	4,500-8,500

COMPLETION COST

D&C COST PER WELL (1)

EVOLUTION OF PRODUCTION

BPO TYPE CURVE

	Oil	Gas	Total
EUR (Mboe)	1,345	175	1,520
Peak IP-30 (boe/d)	1,556	195	1,751
180-day cumulative (Mboe)	198	25	224
360-day cumulative (Mboe)	324	41	365

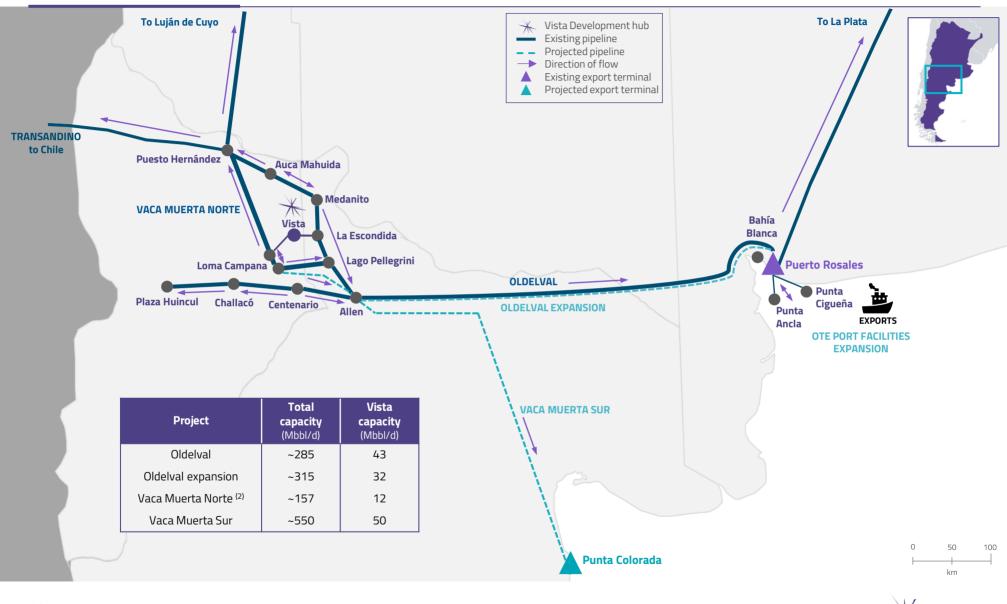

(1) Normalized to a standard well design of 2,800 meters lateral length and 47 frac stages well

(2) 2019 includes pads BPO-1 and BPO-2, 2024 includes pads BPO-22 to BPO-30

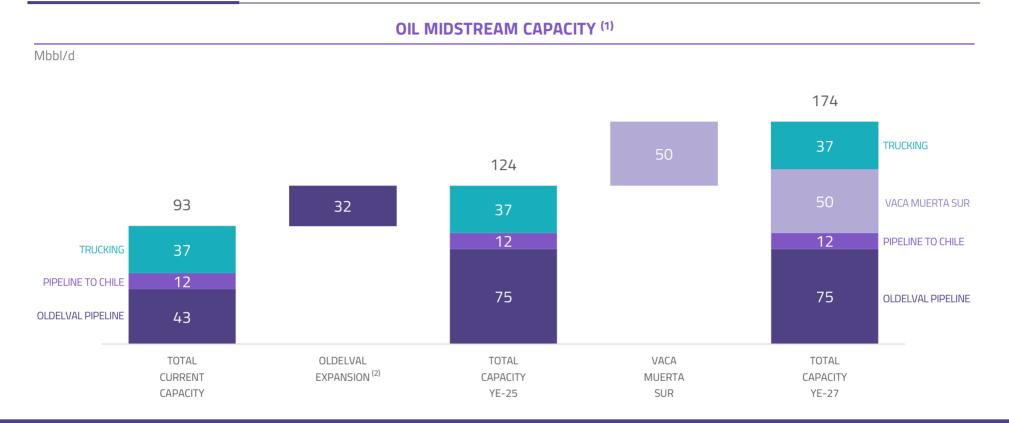

(3) Normalized average cumulative production of wells in pads BPO-1 to BPO-30 for 90 days, pads BPO-1 to BPO-21 for 1 year, and pads BPO-1 to BPO-15 for 2 years. Excludes cube development pilot in pads BPO-16 and BPO-17

Vaca Muerta key oil midstream projects ⁽¹⁾

(2) Exports to Chile limited by Transandino pipeline, which has a capacity of ~110 Mbbl/d

Secured midstream capacity to deliver on 2025 production targets and 2030 vision

- Awarded **31.5 Mbbl/d** incremental pipeline capacity in **Oldelval expansion**
- Awarded **37.4 Mbbl/d** of throughput capacity in **OTE port facilities expansion**
- Acquired a firm transportation, storage and dispatch capacity of 50 Mbbl/d in Vaca Muerta Sur project

Forecasted total oil midstream capacity of 124 Mbbl/d by YE-25 and 174 Mbbl/d by YE-27

15

- (1) Based on contracts signed by Vista and data provided by project operators. Actual delivery dates and capacity might change subject to execution
- (2) Includes 9 Mbbl/d corresponding to friction-reducing agents in use as of May-24

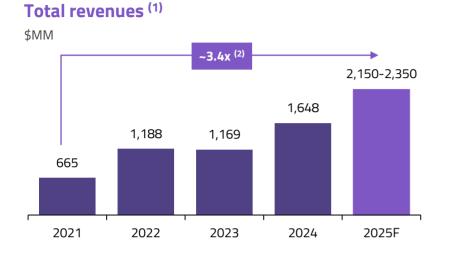

Financials

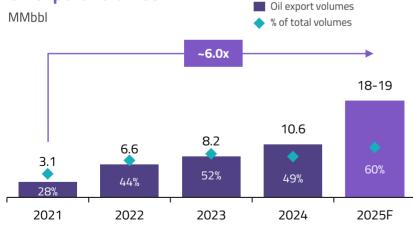

MILESTONES	5 MET SINCE 2021 INVESTOR DAY	CAPITAL ALLOCATION	PRIORITIES
Growth	 Overdelivered on operational and financial targets Contracted trunk pipeline and export terminal evacuation capacity Secured 3 drilling rigs and 2 frac sets to gain growth optionality 	High-return and short-cycle projects to generate profitable growth driven by the export market	MORE Growth
Decarbonization	 Reduced operational GHG emission intensity by 78% ⁽¹⁾ Currently executing 13 NBS projects in Argentina 	Operational decarbonization and NBS projects to pursue our net zero ambition	MORE Decarbonization
Deleveraging	 Extended maturity profile Reduced cost of debt 	Gross leverage ratio reduction	MORE Deleveraging
Strategic flexibility	 Acquired Aguada Federal and Bandurria Norte Executed 129 \$MM of share buybacks 	Efficiently use net cash generation according to changing market dynamics	MAINTAIN Flexibility

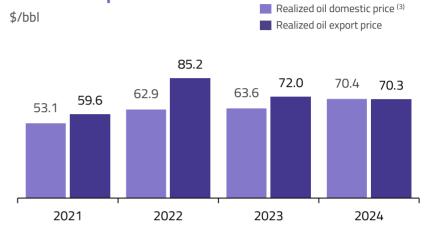

Accelerating export-driven revenue growth

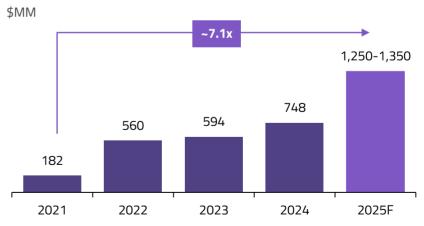

Oil export volumes

Realized oil prices

Net oil export revenues (4)

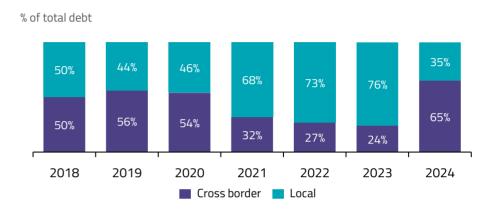

- Total revenues include export duties. Assumes a realized oil price of 67-72 \$/bbl for 2025, with an implied Brent price of 75-80 \$/bbl
 Change calculated with the midpoint of the guidance range
- (3) Realized domestic price by pipeline (i.e., excludes trucking)
- (4) Net oil export revenues are net of export duties

Solid financial position leaves us well-poised for further investments

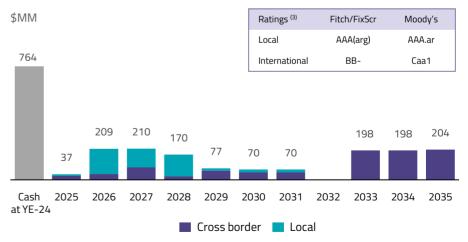

Debt composition

Avg. Interest rate ⁽²⁾

Debt maturities schedule

(1) Net leverage ratio = Net financial debt / LTM Adjusted EBITDA

(2) Avg. interest rate = Interest expense / Gross debt EOP

(3) Ratings correspond to Vista Energy Argentina S.A.U. Local ratings from FixScr (affiliate of Fitch Ratings) and Moody's Local correspond to the Argentine market, and ratings from Fitch Ratings and Mody's Ratings correspond to the international market

Environmental, Social & Governance

Developing our business in a sustainable way

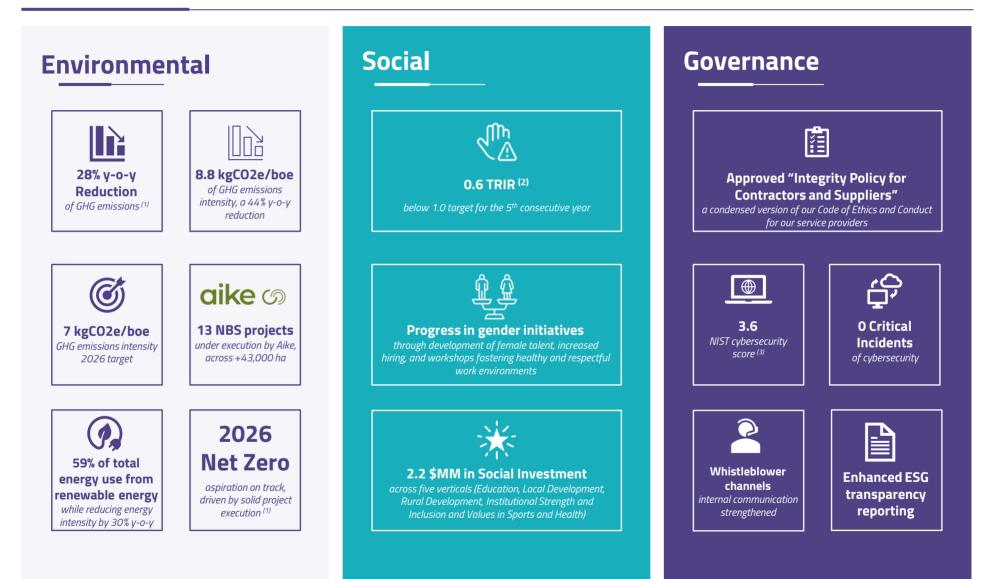

- Board oversight of ESG strategy, with Corporate Practices Committee responsible for evaluating the ESG-related programs, policies and procedures. Committee includes two subject matter experts
- Laid out a comprehensive plan to fulfill our Net Zero aspiration in scope 1 and 2 greenhouse gas (GHG) emissions in 2026, by combining the execution of projects to reduce our operational footprint with the deployment of Nature Based Solutions projects aimed at removing residual emissions
- Safety is bedrock of organization; operating with the highest oil & gas industry standards in accordance with IOGP and IPIECA
- Signatory to the Ten Principles of the United Nations Global Compact on human rights, labor, environment and anti-corruption
- Sustainability Report aligned with Global Reporting Initiative (GRI) as the primary disclosure for comprehensive coverage of ESG factors, Sustainability Accounting Standards Board (SASB) for industryspecific ESG topics most relevant to financial performance and longterm value creation, and Task Force on Climate-Related Financial Disclosures (TCFD) for risk management and strategy development

Solid progress on all ESG fronts in 2024

Information for 2024.

(1) Scope 1 & 2 emissions

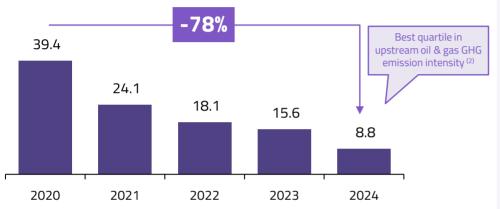

(2) TRIR (Total recordable injury rate): Number of recordable incidents x 1,000,000 / total number of hours worked

(3) Cybersecurity framework developed by the National Institute of Standards and Technology of the USA

GHG emission intensity ⁽¹⁾

kgCO₂e/boe

2026 GHG emission intensity target of **7** kgCO2e/boe **82% decrease compared to 2020** (1)

Key decarbonization projects of 2024:

- Increased renewable energy use to 59% of our energy matrix
- Commissioning of electric gas compression station
- Upgrades in vapor recovery units to improve reliability
- Construction of a gas pipeline from Aguada Federal to Bajada del Palo Oeste to enhance gas evacuation capacity
- Replacement of gas-powered pneumatic valves with electric and air-driven systems

Planned operational decarbonization projects:

- Full roll-out of compressed air instrumentation
- Continue to electrify compression stations and drilling rigs with renewable energy
- Improve uptime of vapor recovery units

Our subsidiary Aike has a mandate to design, manage and execute our carbon offset projects

Aike has made significant progress in the development of Vista's projects:

Mixed Afforestation with native and exotic species

Rolón Cué & Villa Zenaida (Corrientes Province):

- Completed the expansion of the project planting ~1,400 ha with ~1.5 MM trees in 2024, totaling ~3,700 ha with ~3.8 MM trees
- Completed biodiversity baseline measurements
- Project has completed the Voluntary Carbon Standard (VCS) registration and initiated the certification process for Climate, Community and Biodiversity (CCB) Standard

Improved Forest Management

Villa Zenaida (Corrientes Province):

- Launched new project type across 412 ha in Villa Zenaida
- The project has been listed in Verra for VCS&CCB certification

Regenerative Agriculture

Fortín Farias (Buenos Aires Province):

- Regenerative practices implemented across ~2,650 ha
- Conducted baseline measurements
- Project is under VCS validation process

Buenos Aires Province:

- Implemented practices across ~4300 ha and completed baseline measurements
- Signed new contracts for additional ~750 ha

Córdoba Province:

 Signed a total of ~2,450 ha and initiated implementation of regenerative practices

San Luis Province:

Signed a total of ~9,400 ha

Chaguaral (Salta Province):

- Implemented conservation plan
- Conducted social and biodiversity baseline measurements
- Completed critical facilities, fencing and firebreaks
- Project is currently under VCS registration process with Verra and CCB certification is expected for 2025

Mixed Reforestation with native and exotic species

Altos del Guayacán (Formosa Province):

- Launched new project across 4,800 ha
- Completed planting across ~320 ha with 320 M trees
- The project has been listed in Verra for VCS certification

La Alicia (Santa Fe Province):

- Regenerative practices implemented
- Project is under VCS validation process

Salta Province:

- Completed required infrastructure
- Conducted baseline measurements

Lean organization led by one of the most experienced O&G teams in the region

Miguel Galuccio Chairman and CEO

- 30 years of experience in the energy industry across five continents (including integrated oil and gas and oilfield services)
- Independent board member
 of Schlumberger
- Former Chairman and CEO of YPF and President of Schlumberger SPM/IPM ⁽¹⁾
- Board Member at GRIDX
- Petroleum Engineering degree from Instituto Tecnológico de Buenos Aires

Top performing executive team

Pablo Vera Pinto – Chief Financial Officer

+20 years of experience in international business development, consulting and investment banking sectors

- Former Business Development Director at YPF; board member at Profertil (Agrium-YPF), Dock Sud (Enel-YPF) and Metrogas (YPF)
- Prior experience at McKinsey and Credit Suisse
- MBA INSEAD; Economics degree from Universidad Di Tella

Juan Garoby – Chief Technology Officer 30 years of experience in E&P and oilfield service sectors

- Served as Chief Operations Officer at Vista from 2017 to 2024
- Former Interim VP E&P, Head of Drilling and Completions, Head Unconventionals at YPF and former President for YPF Servicios Petroleros (YPF-owned drilling contractor)
- Prior experience in Baker Hughes and Schlumberger
- Petroleum Engineering degree from Instituto Tecnológico de Buenos Aires

Alejandro Cherñacov – Strategic Planning & Investor Relations Officer

+15 years of experience in Latam E&P strategy, portfolio management and investor relations

- Former CFO of small-cap Canada-listed E&P company.
- Prior experience as Investor Relations Officer at YPF
- Masters in Finance from Universidad Di Tella, Strategic Decision & Risk Management Professional Certificate from Stanford, Economics degree from Universidad de Buenos Aires

Matías Weissel – Chief Operations Officer +15 years of experience in E&P operations in Argentina

- Served as Operations Manager at Vista from 2018 to 2024
- Served as Operations Manager at VISta from 2018 to 2024
 Drier experience in VDE developing Vaca Muerta where he
- Prior experience in YPF, developing Vaca Muerta, where he held various positions, including Project Leader for Loma Campana and Manager of Unconventional Projects
- Industrial Engineering degree from the Instituto Tecnológico de Buenos Aires

Board of directors of world-class professionals

Susan L. Segal – Independent

President and CEO of Americas Society / Council of the Americas; board member at the Tinker Foundation, Scotiabank and Mercado Libre

 Degree from Sarah Lawrence University and MBA from Columbia University

Mauricio Doehner Cobián – Independent

Executive VP of Corporate Affairs & Risk Management at Cemex; board member at The Trust for the Americas (Organization of American States)

 Bachelor's degree in Economics from Tecnológico de Monterrey, MBA from IESE/IPADE and Master in Public Administration from Harvard Kennedy School

Pierre-Jean Sivignon – Independent

Board member at Imperial Brands; Advisor to the Chairman and CEO of Carrefour Group until December 2018, previously Deputy CEO, CFO and Member of the Executive Board

 French baccalaureate with honors in France and MBA from ESSEC (École Supérieure des Sciences Économiques et Commerciales)

Gérard Martellozo – Independent

+40 years career at Schlumberger retiring in 2019 as Vice President of Human Resources globally; Chairman of the Board for the Schlumberger Foundation

• Master in Engineering from the Ecole Nationale Superieure de l'Aeronautique et de l'Espace (Sup'Aero), France

Germán Losada – Independent

Co-Founder, Chairman, and COO at VEMO, with +10 years in private equity, investing in the broad energy spectrum

 Business Administration degree from the University of San Andrés in Argentina

25

Closing remarks

Up to 1,150 locations under development in Vaca Muerta with solid results

Low-cost producer, fully-focused on shale oil operations

Solid financial position leaves us well-poised for further growth

Flat and agile organization led by experienced oil & gas team

De-carbonization plan on track, supporting our ambition to become net zero in 2026

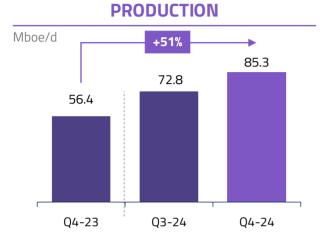

Only "pure-play" Vaca Muerta public investment opportunity

Successful pilots extend ready-to-drill inventory to up to 1,150 wells

PILOT RESULTS

AGUILA MORA

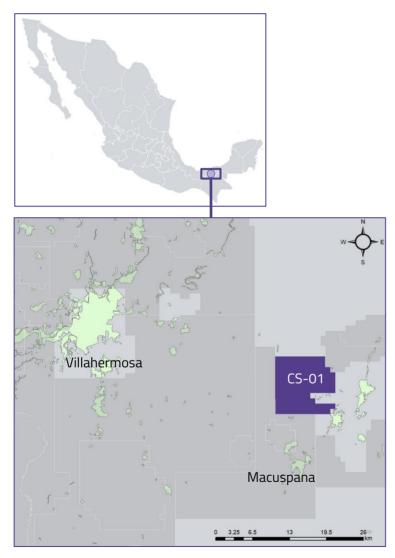

- Tied-in 2-well pad AM-1 in early May, landed 1 well in La Cocina and 1 well in Middle Carbonate
- Pad cumulative production performed 5% above BPO type curve after 1 year ⁽¹⁾
- Based on successful results, we added up to 100 readyto-drill wells to our inventory

(1) Normalized to a standard well design of 2,800 meters lateral length and 47 frac stages per well. BPO type curve has an EUR of 1.52 MMboe, based on a lateral length of 2,800 meters and 47 completion stages per well

Mexican assets overview

CS-01

KEY FACTS

- Working interest: 100%
- Operator: Vista
- Net area: 23,517 acres
- Fluid: Oil, gas and condensate
- Lithology: Sandstone
- State: Tabasco
- Basin: Sureste/Macuspana
- Fields: 2
- Wells on production: 9
- 2024 YE P1 reserves: 9.8 MMboe
- Q4 2024 production: 0.5 Mboe/d

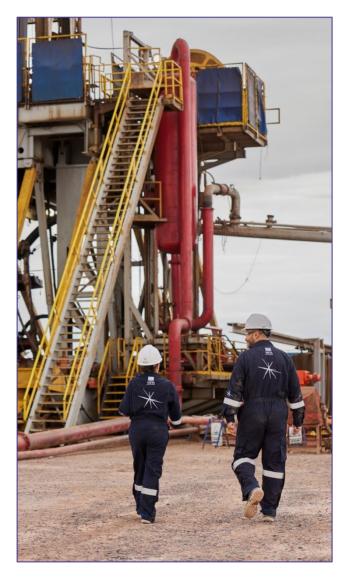

BACKGROUND / DEVELOPMENT STRATEGY

- Incremental production through workover activities and new drilling prospects to produce undeveloped reserves at Zargazal and Belem formations, which have original pressure and important remaining hydrocarbon saturation
- Future upside could come from field redevelopment and infrastructure upgrades
